Our Mission: The Jerusalem Foundation works toward creating an open, equitable and modern society by responding to the needs of residents and improving their quality of life through a comprehensive approach centered on community vitality, cultural life, and coexistence for all Jerusalem's residents.

Our success: Jerusalem would not look the same without the Jerusalem Foundation. Four decades and **over 4,000** projects later, we have left our imprint on nearly every corner of this city. The Jerusalem Foundation has established the city's most well known landmarks: hundreds of parks, aid to schools, libraries, support for the elderly, community centers, cultural institutions and much much more.

Why the Jerusalem Foundation? **We know Jerusalem**, we empower active vibrant and tolerant communities, and we have an unmatched record of success.
